

A red pickup truck is shown from a rear three-quarter view. The truck bed is open, and a large, black, textured mat with a grid pattern is installed in the bed. The mat has two circular cutouts near the front. The truck's rear window, taillight, and a portion of the rear wheel are visible. The background is a plain, light-colored wall.

Need Traction?

WEIGHT-MATE

Will Get You Going

Safe • Affordable • Easily Installed

Tired of Unsightly Salt or Awkward Sand Bags? **WEIGHT-MATE** has the Answer
